# RECONSTRUCTIONISM AND THE 21<sup>ST</sup> CENTURY

We're progressive, inclusive  
♥ questions and change!

We can invigorate & expand  
Communities by building communities  
that don't follow regressive  
models - create new models!

Our leadership is both  
sensitive to change and  
helps orchestrate change.

challenges are opportunities -  
when we see fragmentation &  
discrimination, we have missions  
& democratic values to expand.

Reconstructionist Judaism  
gives us all opportunities  
↓ lead out follow.

We can be good allies to  
Muslim communities, as a  
group that has our own history  
of discrimination.  
we can model these ways  
of being in the world.

Reconstructionist communities help  
and respect real diversity of  
thought - religious, political, and otherwise.

Could we bring an RJC campus to New York?  
would that help bring more rabbis to metro area congregations?

What can I do to help your Reconstructionism?  
Talk about our strengths / Not enough  
people know about us.
